Return to Competition Profile Proceed to Checkout

The "package" is your one **official** practice ice time. There will be a 5 minute warm-up, then each skater's music will be played. Each skater above Juvenile will have their choice of SP or FS music. The number of skaters on these sessions are very limited. The average is only 6-8 skaters and they are all of the same test level.

Unofficial ice is conducted completely differently – there is **NO MUSIC** on it and there can be up to 30 skaters of combined levels.

Continue with the check-out process to pay for your official practice ice.
