

You are invited to attend the 1st session of the 2016 Pasadena Figure Skating Club Education Series on Saturday, March 26, 2016 at 10:15 am -12:15pm at the Pasadena Ice Skating Center Party Room.

“Female Athlete Triad and Staying Out of Trouble: What Athletes, Parents and Coaches Should Know”

Presented by:
Bianca Edison, MD

Assistant Clinical Professor of Orthopedics
Keck School of Medicine of USC
Attending Physician
Sports Medicine and Concussion Program
Children's Orthopaedic Center (COC) at Children's Hospital Los Angeles

Bianca Edison, MD, MS is an attending physician in the Children’s Orthopaedic Center, and is assistant clinical professor of Orthopaedics at the Keck School of Medicine of the University of Southern California. She received her undergraduate training at Harvard University and her medical degree from Baylor College of Medicine. She conducted her pediatric training at UCLA and performed a fellowship specializing in sports medicine at Children's Hospital Los Angeles. Dr. Edison’s clinical interests and experience include orthopaedic conditions affecting athletes, such as dance injuries, sports-related concussion, injury prevention, and biomechanics.

Dr. Edison is a team doctor for various sports teams throughout Los Angeles. She brings a personal understanding to the challenges facing young athletes, as she grew up with a

passion for sports and participated in ballet, tennis and track, and currently enjoys tennis, swimming, skiing, hiking, running and yoga.
